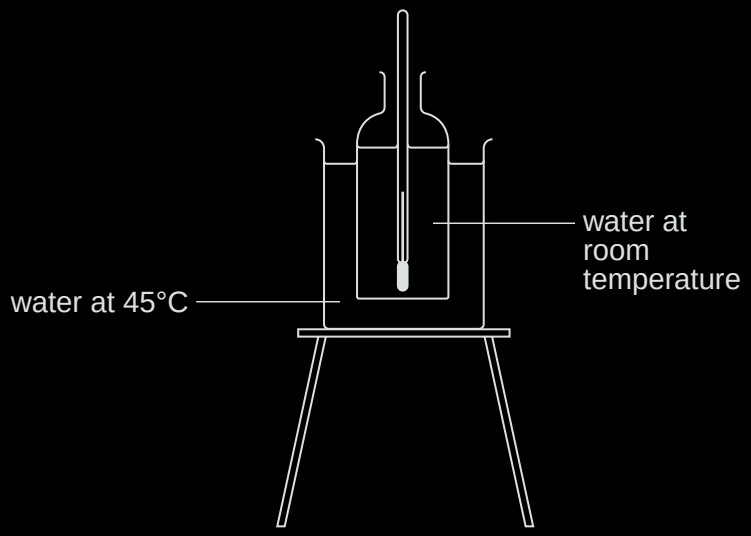

Fig. 1.1

- As soon as the apparatus had been set up, the student immediately measured and recorded the temperature of the water in the bottle and then again every two minutes for the next ten minutes.

- The student then replaced the water in the bottle and beaker and fitted some plastic tubing into the bottle as shown in Fig. 1.2.

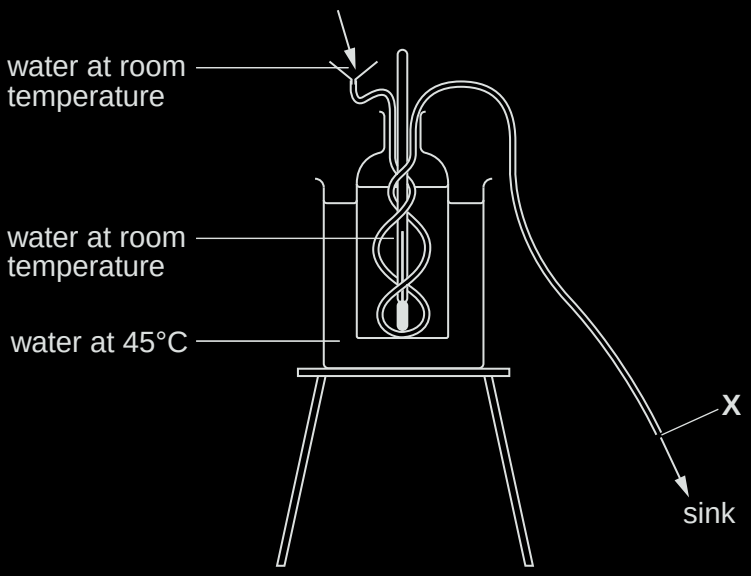

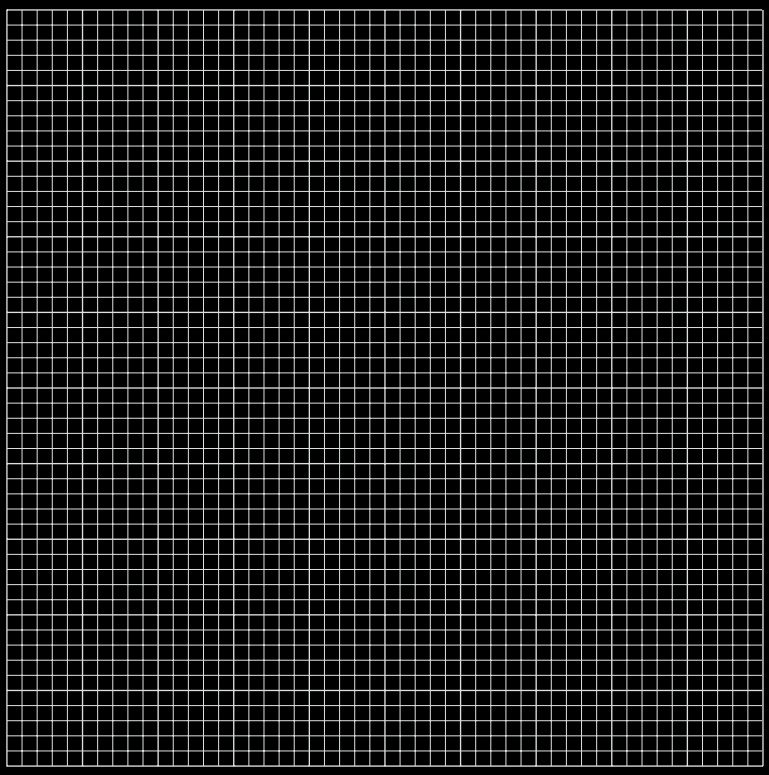

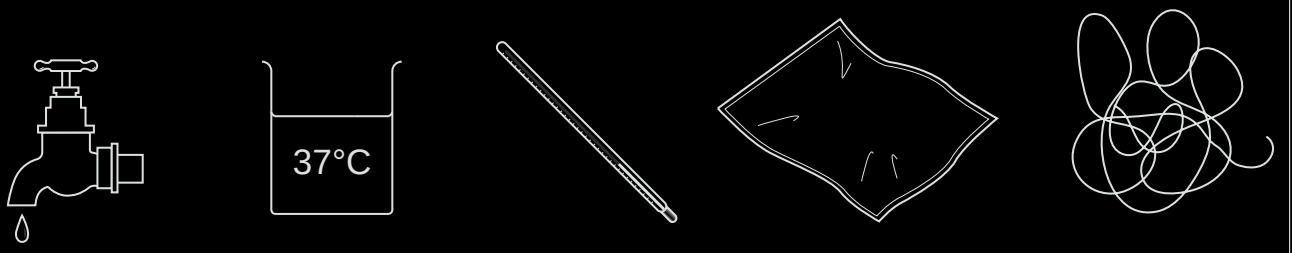

Fig. 1.2

- A steady stream of water at room temperature was poured through the funnel and tubing.

- As soon as the apparatus had been set up, the student immediately measured and recorded the temperature of the water in the bottle and then again every two minutes for the next ten minutes.

tap | beaker of warm water | thermometer | cloth | string
