General information about practical exams

Centres must follow the guidance on science practical exams given in the *Cambridge Handbook*.

Safety

Supervisors must follow national and local regulations relating to safety and first aid.

Only those procedures described in the question paper should be attempted.

Supervisors must inform candidates that materials and apparatus used in the exam should be treated with caution. Suitable eye protection should be used where necessary.

The following hazard codes are used in these confidential instructions, where relevant:

C	corrosive	**MH**	moderate hazard
HH	health hazard	**T**	acutely toxic
F	flammable	**O**	oxidising
N	hazardous to the aquatic environment		

Hazard data sheets relating to substances used in this exam should be available from your chemical supplier.

Before the exam

- The packets containing the question papers must **not** be opened before the exam.
- It is assumed that standard school laboratory facilities, as indicated in the *Guide to Planning Practical Science*, will be available.
- Spare materials and apparatus for the tasks set must be available for candidates, if required.

During the exam

- It must be made clear to candidates at the start of the exam that they may request spare materials and apparatus for the tasks set.
- Where specified, the supervisor **must** perform the experiments and record the results as instructed. This must be done **out of sight** of the candidates, using the same materials and apparatus as the candidates.
- Any assistance provided to candidates must be recorded in the supervisor's report.
- If any materials or apparatus need to be replaced, for example, in the event of breakage or loss, this must be recorded in the supervisor's report.

After the exam

- The supervisor must complete a report for each practical session held and each laboratory used.
- Each packet of scripts returned to Cambridge International must contain the following items:
  - the scripts of the candidates specified on the bar code label provided
  - the supervisor's results relevant to these candidates
  - the supervisor's reports relevant to these candidates
  - seating plans for each practical session, referring to each candidate by candidate number
  - the attendance register.

Specific information for this practical exam

During the exam, the supervisor (NOT the invigilator) must do the experiment in Question 1 and record the results on a spare copy of the question paper, clearly labelled 'supervisor's results'.

Apparatus and chemicals for Question 1

Each candidate will require the following apparatus and materials:

Question 1

(i) A slice of Irish potato tuber at least 10 mm thick, 30 mm wide and over 80 mm long. It must be sufficient for candidates to cut four strips of tissue 5 mm × 5 mm × 80 mm with no skin attached. This should be cut not more than an hour before the examination and wrapped in a damp paper towel.

(ii) 20 cm^3 of each of four solutions in small beakers, or suitable containers, and labelled **A**, **B**, **C** and **D**:

A – distilled water

B – 0.6 M sucrose

C – 1.0 M sucrose

D – 0.3 M sucrose

1.0 M sucrose contains 342.3 g sucrose dissolved in distilled water and made up to 1 dm^3.

Add 6 parts 1.0 M sucrose to 4 parts distilled water to make 0.6 M solution.

Add 3 parts 1.0 M sucrose to 7 parts distilled water to make 0.3 M solution.

(iii) solid-edged razor blade / sharp knife / scalpel

(iv) four test-tubes

(v) test-tube rack or similar for supporting test-tubes

(vi) small beaker (minimum 100 cm^3), or similar container, labelled **for used solutions**

(vii) ruler (mm)

(viii) wax pencil or other means of writing on glassware

(ix) white tile or other similar surface for cutting potato

(x) spatula or glass rod for removing potato strips from test-tubes

(xi) stop-clock or sight of a clock with second hand

(xii) paper towels

Declaration

1 Each packet that I am returning to Cambridge International contains all of the following items:
- the scripts of the candidates specified on the bar code label provided
- the supervisor's results relevant to these candidates
- the supervisor's reports relevant to these candidates
- seating plans for each practical session, referring to each candidate by candidate number
- the attendance register.

2 Where the practical exam has taken place in more than one practical session, I have clearly labelled the supervisor's results, supervisor's reports and seating plans with the time and laboratory name/number for each practical session.

3 I have included details of difficulties relating to each practical session experienced by the centre or by candidates.

4 I have reported any other adverse circumstances affecting candidates, e.g. illness, bereavement or temporary injury, directly to Cambridge International on a *special consideration form*.
