UNIVERSITY OF CAMBRIDGE INTERNATIONAL EXAMINATIONS
General Certificate of Education Ordinary Level

CANDIDATE NAME

CENTRE NUMBER

CANDIDATE NUMBER

6513397472

PHYSICS **5054/03**

Paper 3 Practical Test **October/November 2008**

2 hours

Candidates answer on the Question Paper.

Additional Materials: As listed in the Confidential Instructions

READ THESE INSTRUCTIONS FIRST

Write your Centre number, candidate number and name on all the work you hand in.
Write in dark blue or black pen.
You may use a pencil for any diagrams, graphs or rough work.
Do not use staples, paper clips, highlighters, glue or correction fluid.
DO **NOT** WRITE IN ANY BARCODES.

Answer **all** questions.
For each of the questions in Section A, you will be allowed to work with the apparatus for a maximum of 20 minutes. For the question in Section B, you will be allowed to work with the apparatus for a maximum of 1 hour.
You are expected to record all your observations as soon as these observations are made.
An account of the method of carrying out the experiments is **not** required.

At the end of the examination, fasten all your work securely together.
The number of marks is given in brackets [ ] at the end of each question or part question.

For Examiner's Use

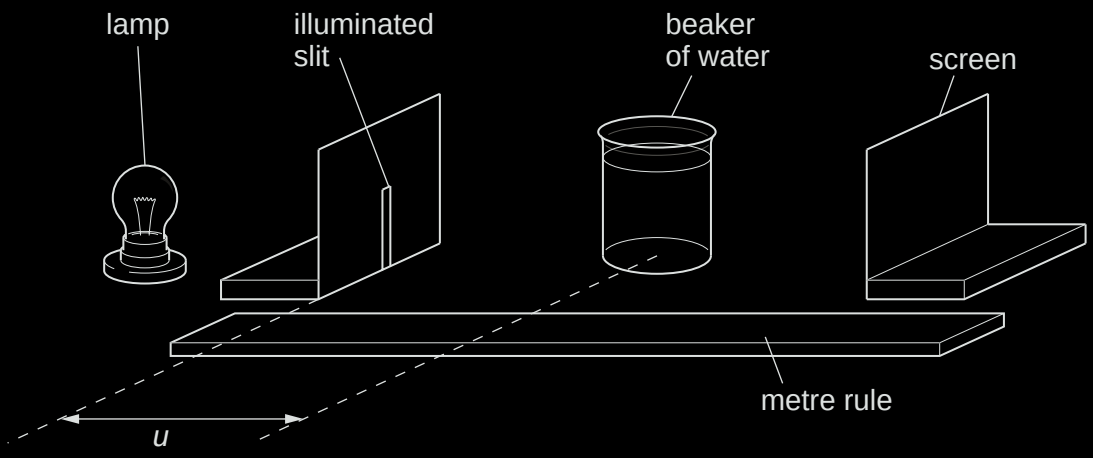

Fig. 1.1

(ii) Place the illuminated slit a distance u = 15.0 cm from the centre of the beaker of water. Adjust the position of the screen until a focussed image of the slit is formed on the screen. Measure the distance v between the centre of the beaker and the screen.

v = ...

(iii) State and explain any special precautions that you took in order to obtain accurate values for u and v.

.....

.....

.....

[2]

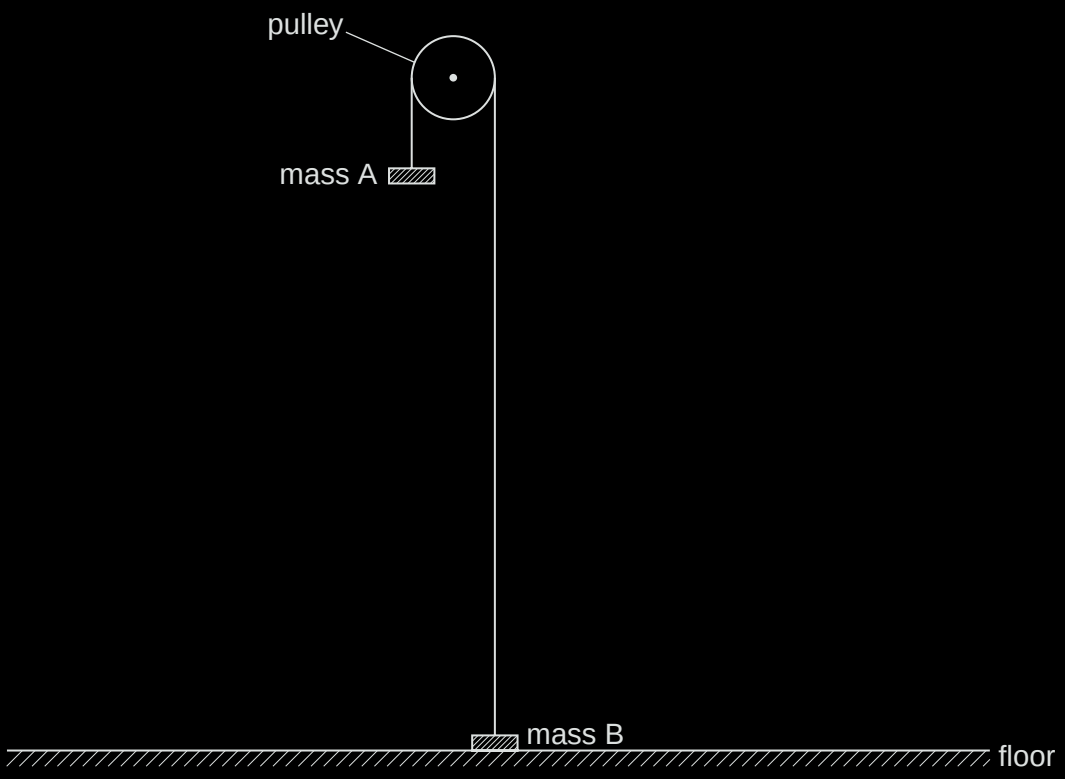

Fig. 2.1

Raise mass B so that it is a distance y = 1.00 m from the floor. Release mass B. Determine the average time t taken for mass B to fall to the floor.

t = ... [2]

(b) Calculate the acceleration a of the mass B using

$$a = \frac{2y}{t^2}.$$

a = ... [1]

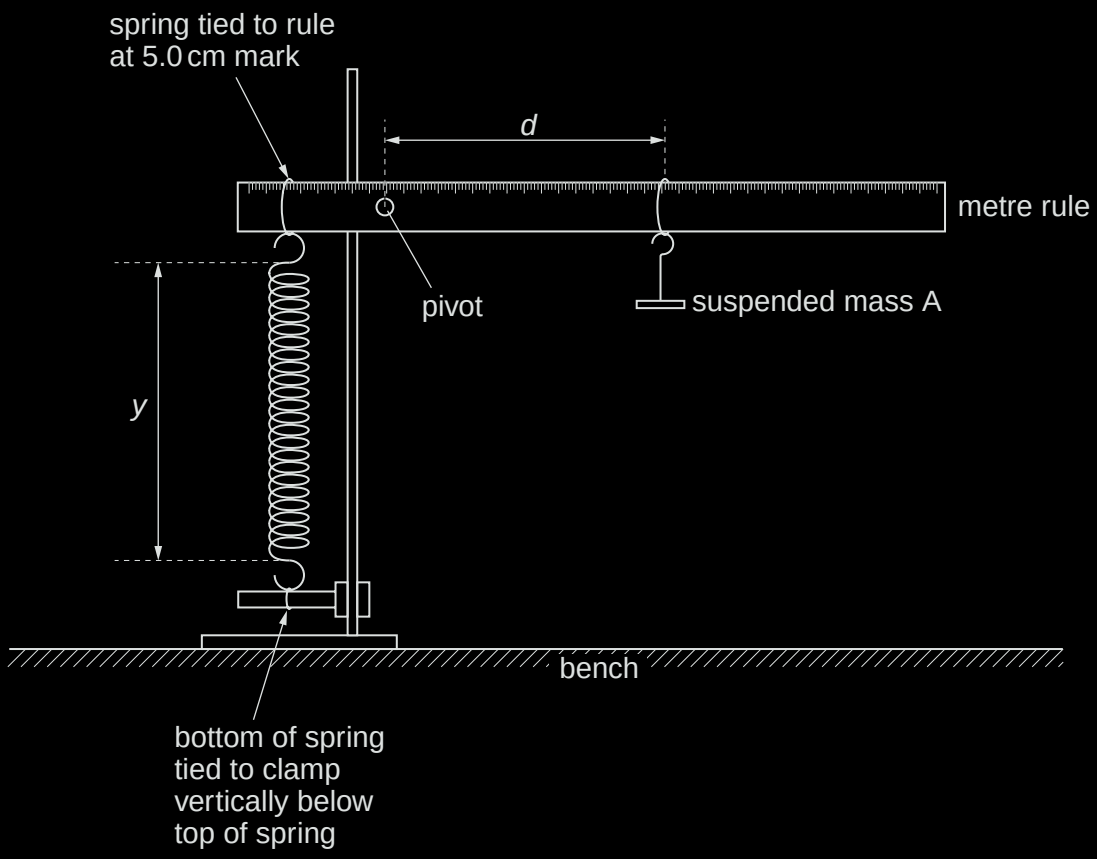

Fig. 4.1

(a) Measure the length l of the coiled part of the **unstretched** spring, as shown in Fig. 4.2.

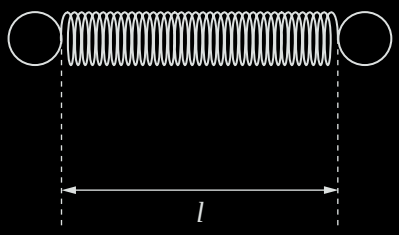

Fig. 4.2

l = ... [1]
