ENVIRONMENTAL MANAGEMENT

0680/04
5014/02

Alternative to Coursework

May/June 2008

1 hour 30 minutes

Candidates answer on the Question Paper.

Additional Materials: Ruler

READ THESE INSTRUCTIONS FIRST

Write your Centre number, candidate number and name on all the work you hand in.
Write in dark blue or black pen.
You may use a soft pencil for any diagrams, graphs or rough working.
Do not use staples, paper clips, highlighters, glue or correction fluid.
DO **NOT** WRITE IN ANY BARCODES.

Answer **all** questions.
Study the appropriate Source materials before you start to write your answers.
Credit will be given for appropriate selection and use of data in your answers and for relevant interpretation of these data. Suggestions for data sources are given in some questions.
You may use the source data to draw diagrams and graphs or to do calculations to illustrate your answers.

At the end of the examination, fasten all your work securely together.
The number of marks is given in brackets [ ] at the end of each question or part question.

For Examiner's Use

This document consists of **18** printed pages and **2** blank pages.

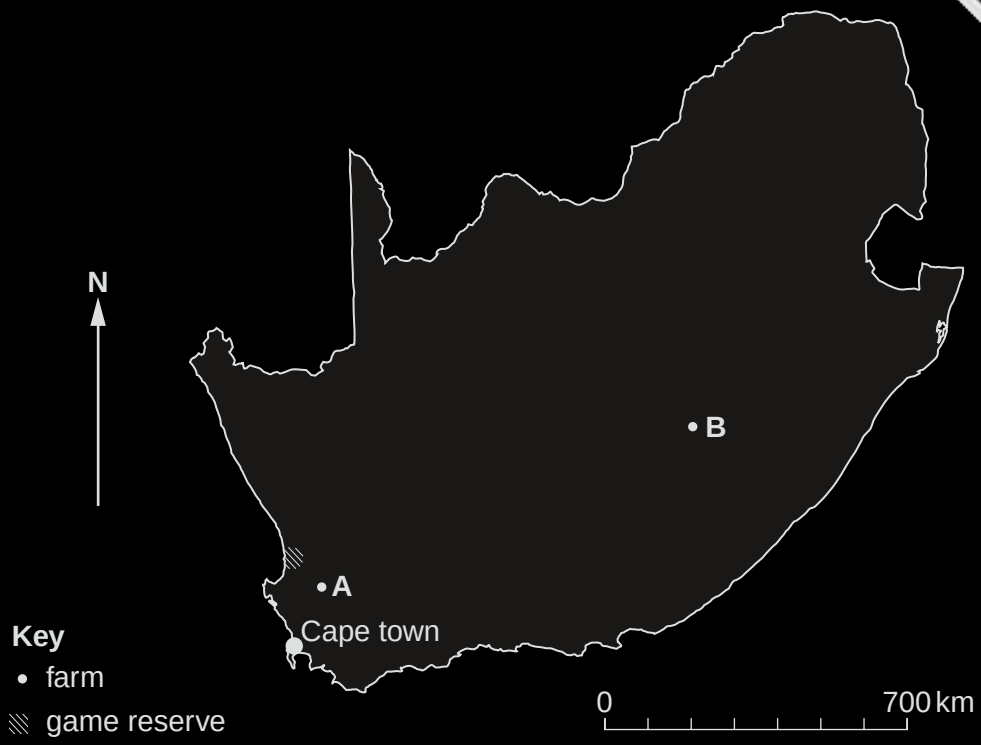

Fig. 2 map of South Africa

South Africa is rich in natural resources with well developed financial, legal, communications, energy and transport sectors. A good infrastructure supports the efficient distribution of goods to urban centres. However there is still high unemployment and poverty.

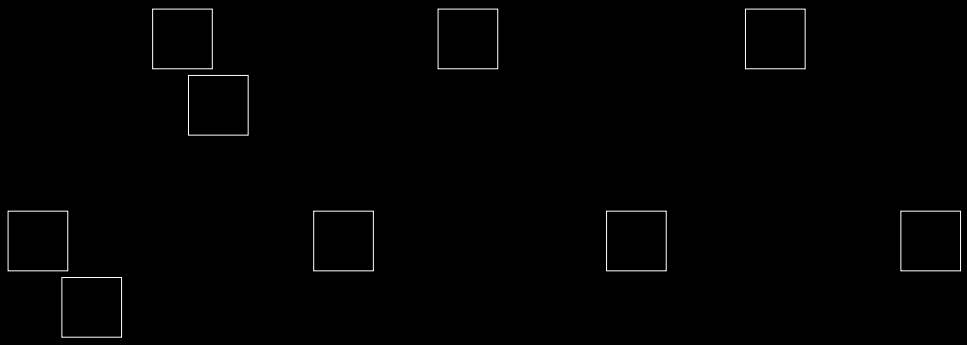

- Area: 1 200 000 sq km
- Population; 45 000 000
- Children per woman: 2.2
- Life expectancy at birth: 42 years
- Currency: Rand (6–10 rand per US dollar)
- Languages: English, Afrikaans, Isizulu, Sepeli, English, others
- Climate: Semi arid, subtropical along the east coast
- Altitude: 0 to 3 408 m
- Agricultural products: maize, wheat, sugar cane, fruits, vegetables, beef, poultry, mutton
- Industries: mining, textiles, iron and steel, chemicals.

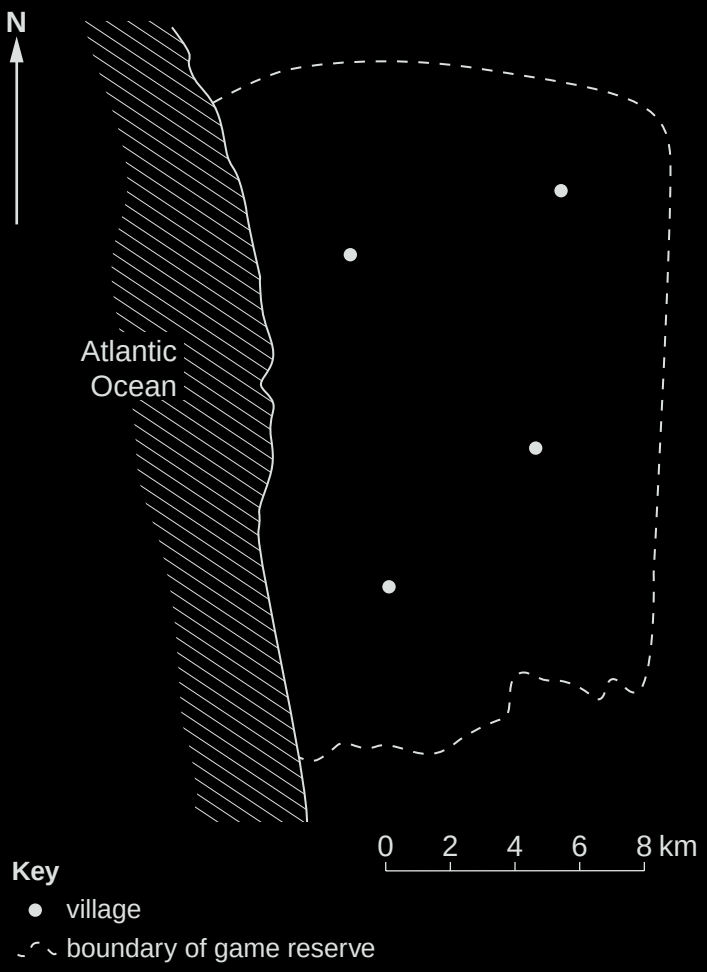

Fig. 5 map of game reserve

Using the questionnaire, you have been asked to interview people living in the reserve shown in Fig. 5. You do not have time to interview everyone.

(ii) Describe, in detail, how you would collect a fair sample of the views of the people living in the game reserve.

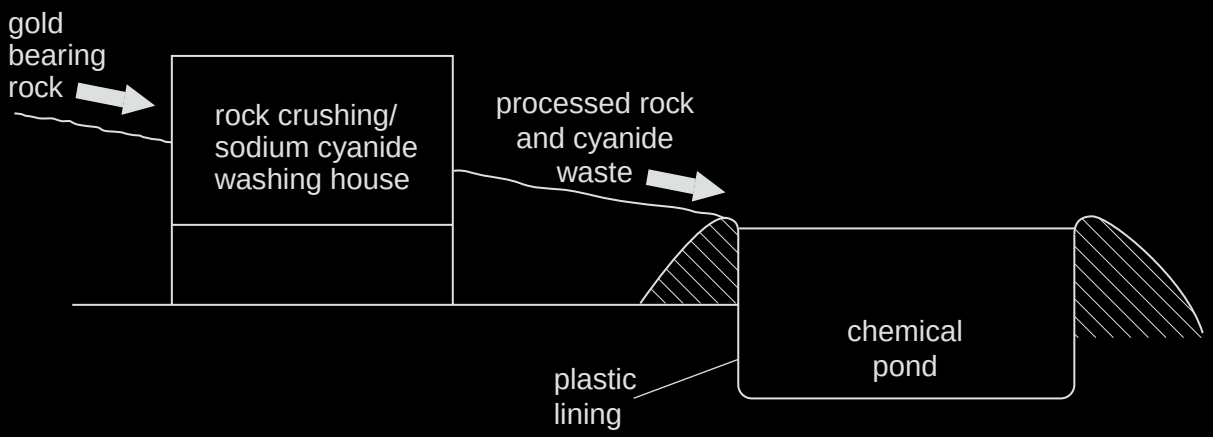

Fig. 10 crushed rock to ponds

(a) Suggest two risks the gold miners face using this chemical extraction method.

.....

..... [2]

(b) The chemical may only extract another 3% of gold from the rock but the mining companies still want to buy the chemical.
Explain why.

.....

..... [1]

(c) Mining companies claim they check all their stored waste regularly and there is no risk to the environment or local people. They claim the cyanide breaks down when exposed to sunlight and oxygen.

(i) Suggest **two** reasons why the chemical ponds should be covered.
