PHYSICS 5054 QUESTION BANK - EXCLUSIONS AND UNRESOLVED ITEMS

Belongs to physics_5054_past_paper_questions_with_ms.pdf. Written 2026-11-13 11:28 UTC by tools/bank/breports.py.

The bank holds a question only if (1) it is in a Paper 1 or Paper 2 question paper, (2) the official mark scheme of that paper is in the repository and (3) at least one part of the question is on a selected syllabus subsection (1.1-1.7, 3.1-3.4, 4.2). Everything else is listed here. No answer was written, inferred or taken from another paper.

SUMMARY

A	255	questions in 10 question papers without a mark scheme in the repository (133 of them on a selected subsection)
B	2	files that are scanned "solved" copies of question papers
C	1,654	questions of the 156 papers used with no part on a selected subsection (Paper 1: 1,397, Paper 2: 257)
D		parts of the pages of the included questions that are not reproduced (page furniture, shared lined pages, general notes), and page furniture that is inside the pictures
E		syllabus sections that were not selected
F	471	files of other kinds in the folder (Papers 3 and 4, examiner reports, grade thresholds, instructions)
G		unresolved items: none

A. QUESTION PAPERS WITHOUT A MARK SCHEME IN THE REPOSITORY

The folder physics-5054 has no mark scheme for these ten question papers, so none of their questions is in the bank: a question is never shown without its own official scheme and the scheme of another paper is never attached to it. For the reconciliation every question was still given its syllabus code. Questions whose text is identical to a question of a verified paper take the code of that question; the others were coded by reading the question (no scheme to check against).

5054_w10_qp_13.pdf — October/November 2010, Paper 1, variant 3: 40 questions, 20 on a selected subsection (20 question/subsection pairs)

Every question is identical in text to a question of a verified paper: 40 in 5054_w10_qp_11.pdf.

Q1	source p. 2	1.1	identical question in the bank: 1.1|w10|P1|V1|Q2
Q2	source p. 2	1.2	identical question in the bank: 1.2|w10|P1|V1|Q4
Q3	source p. 2	1.5.2	identical question in the bank: 1.5.2|w10|P1|V1|Q6
Q4	source p. 3	1.1	identical question in the bank: 1.1|w10|P1|V1|Q1
Q5	source p. 3	1.2	identical question in the bank: 1.2|w10|P1|V1|Q3
Q6	source p. 4	1.5.1	identical question in the bank: 1.5.1|w10|P1|V1|Q5
Q8	source p. 5	1.5.6	identical question in the bank: 1.5.6|w10|P1|V1|Q9
Q9	source p. 5	1.3	identical question in the bank: 1.3|w10|P1|V1|Q7
Q11	source p. 6	1.4	identical question in the bank: 1.4|w10|P1|V1|Q8

s04_1 5054_s04_qp_1.pdf 20 of 40 questions left out: Q11 old, Q14 1.8, Q15 1.8, Q16 2.1, Q17 old, Q18 2.3, Q25 4.1, Q26 4.1, Q29 4.3, Q30 4.4, Q31 4.5, Q32 4.5, Q33 4.5, Q34 4.5, Q35 4.5, Q36 4.3, Q37 old, Q38 5, Q39 5, Q40 5
s04_2 5054_s04_qp_2.pdf 5 of 11 questions left out: Q2 2.3, Q3 2.2, Q5 4.5+4.1, Q7 old, Q8 5

Total: 1,654 questions (1,397 of Paper 1, 257 of Paper 2).

D. MATERIAL ON THE PAGES OF THE INCLUDED QUESTIONS THAT IS NOT REPRODUCED

The pictures of the bank run from the first line of a question (or scheme) to its last line, over the full width of the page. D1 lists what is left out, D2 what is inside a picture although it is not part of the question.

D1. Not part of a picture:

* the page number at the head of the page (exception in D2), the footer line (copyright, paper code, "Turn over") and bar codes;
* blank pages, cover pages, the instructions on the front page, formula or data pages, copyright notices at the end;
* the shared lined answer pages at the end of seven Paper 2 question papers of 2004-2009 (19 pages). They are ruled lines for the answers to all Section B questions and belong to no single question:
  5054_w04_qp_2.pdf: source pages 18-20

5054_w05_qp_2.pdf: source pages 14-16
5054_s07_qp_2.pdf: source pages 16
5054_s08_qp_2.pdf: source pages 14-16

5054_s11_ms_21.pdf p. 2 (before the scheme of Question 1):

Do not accept fractions. No penalty for 2 sig. fig. or for
Only one unit and only one fraction penalty per question.

5054_s22_ms_22.pdf p. 5 (before the scheme of Question 1):

Marking

* Paper 1 mark schemes: no picture. The answer of the question is typeset as text ("Answer: C"); the letter is the key
letter in the row of that question in the answer key. The rest of the key table belongs to other questions.

D2. Inside a picture although not part of the question. A picture is the full width of the page and has no holes, so what
stands beside or directly above the lines of a question is in its picture:

* the heading of a section with its instruction ("Section A", "Answer all the questions in this section.", "Section B",
"Answer two questions from this section."). It is printed directly above the first question of the section and is kept
with that question: 119 pictures, shown on 267 pages of the bank (267 records).
* in the Paper 2 mark schemes, the heading "Section A" or "Section B" above the scheme of the first question of the section:
72 pictures, shown on 151 pages of the bank (151 records).
In every one of them the heading is the first line of the picture; no scheme picture holds a heading anywhere else.
* the column "For Examiner's Use" of the older papers with its label and its rule, the corner marks of the page, and the
vertical notice "DO NOT WRITE IN THIS MARGIN" of the 8 Paper 2 papers of October/November 2024 to May/June 2026 (the notice is cut
where a picture ends);
* the page number, in 8 Paper 2 question papers of 2004-2007 only. In these papers the label 'For Examiner's Use' begins on the
line of the page number and reaches down to the first line of the page. A picture of the top of such a page cannot leave
the number out without cutting through the label or the first line: 44 pictures, shown on 63 pages of the bank (56 records).
Files: 5054_s04_qp_2.pdf, 5054_w04_qp_2.pdf, 5054_s05_qp_2.pdf, 5054_w05_qp_2.pdf, 5054_s06_qp_2.pdf, 5054_w06_qp_2.pdf, 5054_s07_qp_2.pdf, 5054_w07_qp_2.pdf.
* a notice that the next question or section begins over the page, printed alone on the page after the last line of a
question: 7 pictures, shown on 13 pages of the bank (13 records); each is a strip less than 30 pt high. Bank pages: 43, 302, 1159, 1584, 2629, 2638, 2919, 3282, 3466, 3475, 3817, 4116, 4132.
Wording: "Question N begins over the page" (2); "Question N begins over the page." (2); "Question N starts over the page" (1); "Section B begins over the page" (2).

E. SYLLABUS SECTIONS THAT WERE NOT SELECTED

Selected: 1.1-1.7 (all subsections), 3.1-3.4 (all subsections) and 4.2 (4.2.1-4.2.4): 27 subsections.
Not selected. A question with no part on a selected subsection is not in the bank (part C). A Paper 2 question that has a
part on a selected subsection and other parts on these sections is in the bank and is shown whole.
Rows of the verification tracker (one per Paper 1 question, one per Paper 2 sub-question) that carry the code:

section	rows	of these in questions left out
1.8 Pressure	243	181
2.1 Kinetic particle model of matter	241	204
2.2 Thermal properties and temperature	366	292
2.3 Transfer of thermal energy	210	164
4.1 Simple magnetism and magnetic fields	142	131
4.3 Electric circuits	299	127
4.4 Practical electricity	232	140
4.5 Electromagnetic effects	474	383
4.6 Uses of an oscilloscope	50	30
5 Nuclear physics	652	620
6 Space physics	120	71
earlier-syllabus content (not in the 2026-2028 syllabus)	227	172

Section 4.3 (electric circuits) is not a selected section: series and parallel circuit rules are filed there, not under 4.2.4.

F. FILES OF OTHER KINDS IN THE FOLDER

794 PDF files in physics-5054: 311 used (78 Paper 1 and 78 Paper 2 question papers, 155 mark scheme files: the May/June 2004
mark scheme is one file for all papers), 12 listed in A and B, 471 of other kinds:

83	Paper 4 question papers (alternative to practical)
82	Paper 3 question papers (practical test)
77	Paper 4 mark schemes
74	Paper 3 mark schemes
46	instructions for the practical test (Paper 3)
40	examiner reports
33	confidential instructions (Paper 3)
24	grade thresholds
11	answer booklets of the practical test (Paper 3)
1	Paper 4 question papers (alternative to practical) - scanned "solved" copy

The request covers past-paper questions with mark schemes for the theory papers; Papers 3 and 4 test practical skills and
were not part of the verified material.

G. UNRESOLVED ITEMS

None. Every question of every Paper 1 and Paper 2 question paper in the folder is either in the bank or listed in A or C, and
every included question has the scheme of its own paper (see the reconciliation in the audit file).
